MORE TROUBLE IN THE EAST.

We have all read how the Turks slaughtered and robbed our missionaries and other American citizens sometime back, and now we are watching to see how Uncle Sam will "bully" a hundred-thousand-dollar indemnity out of the "unspeakable Turk." Your Uncle is laying down the law to Mohammed, and telling him how he will wipe him and his harem off the geography if he doesn't pay up; but never answer. We don't suppose the son of Allah understands our language; anyway he doesn't reply. So President Mac threatens to send our navy over there and carry out the wiping off business. It would be nice fun and practice for our boys, and maybe we would find another Dewey. (Yes, why not? His majesty's old tubs are just as good targets as were Montijo's.) But all this glory is not to be. The European powers have had their say, and here it is: "However much Turkey may wrong the United States, American ships are not to pass the Straits in order to exact redress from Constantinople, under penalty of being blown out of the water by Russian, German and Austrian ships."

Curious language, isn't it? But then we don't want to hurt the poor heathen, after all, do we?

The casualties of the Federal army in the Philippines since the first landing of American troops at Manila, July 1st, 1898, aggregate 2,256 in killed and deaths from other causes. The number wounded and invalided cannot now be ascertained. At present there are approximately 63,000 American soldiers of different grades in the Philippine service who are subject to the adverse changes of a desultory guerrilla warfare by the insurgents and to deleterious climatic influences which have proven a constant drain on human life ever since those islands began to be occupied by our military. The exact fatalities of this war may never be known, but it is safe to say the price of blood has been paid in full, and the War Department should disclose approximately the measure of the sacrifice throughout the archipelago for the sake of the nation.

SENATOR CLARK, of Montana, on Tuesday of last week scored a coup on Senator Chandler and the other radicals who were going to have him expelled on that day. At the opening of the Senate Clark announced that he had sent his resignation to the Governor of Montana. That night a telegram from the Lieutenant Governor, a friend of Clark's, announced that Clark had been re-appointed by him. The Governor of Montana, who is opposed to Clark, was absent in California for a few days, and the acting governor was vested with full powers to do as he did. Governor Smith hurried back to his state and appointed Martin Maginnis United States Senator to succeed Mr. Clark. So the tug of war begins, and maybe Montana will resolve itself into a little Kentucky before the matter is settled.

A TENNESSEE Congressman has set his colleagues an example which they will hardly have the courage to follow. In asking for renomination he presented to his constituents an itemized account of what he had accomplished in the Fifth-fourth, Fifty-fifth and Fifty-sixth Congresses. He put through 835 war claims, amounting to over \$1,200,000, and 65 special pension bills; had 41 men commissioned as army officers by the President; had 74 new post-offices established; had 29 men appointed as postmasters; made about 12,000 calls on the Pension Bureau; sent out 29,000 packages of vegetable seeds; distributed 67,000 pamphlets and books; mailed 167,000 copies of his speeches and wrote 47,000 letters to his constituents.

THE Wise faction, of the Second District, and the dominant wing of the Republican party in this State are not "gee-ing" very well. Dr. Richard A. Wise, who was seated over Congressman Young by a Republican House, showed his spite to the Agnew faction a few days ago, when a young man, reinforced by the en-

dorsement of the State Committee, applied to him for aid in securing a position. Mr. Wise said: "I knew and respected your father, but I can do nothing for you with that endorsement."

The Richmond papers say that the May carnival must be made a permanent; that it is too good and merry and altogether pleasant a thing to fall into desuetude. We conclude that it is; the managers received about two thousand dollars as profits and the merchants harvested the shekels. After all the people seemed to enjoy it and to feel that they had gotten their money's worth.

A GOLD WATCH was the prize offered at the Richmond Carnival to the best looking editor, and a ton of coal to the homeliest editor. The prizes were not competed for, at least not awarded, so far as we have seen. But this is easily accounted for as the CITIZEN's editor got in too late to compete for the first, and the Sentinel's editor left before the test for the latter came off.

Ger you a piece of smoked glass and watch the sun go into eclipse on next Monday, the 28th.

CONSTITUTIONAL CONVENTION. No Democrat, worthy of the name, will stay at home next Thursday, but every one of us will go to the polls and vote "For a Constitutional Convention."—Southside Sentinel.

On that plank (the Constitutional Convention), as on other planks of the Norfolk platform, the voter must be for the Democratic party, or he must be against it.—Petersburg Index-Appal.

Should the chance for getting a good Constitution be lost on May 24th under auspicious circumstances—and everybody knows what we mean by that—there will be warm times ahead for the men whom the Democratic people of the State will hold responsible. Remember that.—Norfolk Landmark.

It were far better that this question had never come up than that the convention measure should be defeated at the polls. Some Democrats seem to be indifferent and others are opposed to the convention, but we give them fair warning that if the Republicans win out in the election on the 24th instant, it will be an evil day for the Democratic party in Virginia.—Richmond Times.

Senator Martin has written a letter to a friend in Charlottesville in which he asserts that he gives his "cordial and earnest support to everything done at the Norfolk Convention," and that the statements to which his attention has been called "are simply gratuitous falsehoods, circulated without the color of foundation." This ought to settle the position of Senator Martin on the convention question.—Baltimore Sun.

(Richmond Dispatch.) Can it be possible that any sane man will contend that the Virginians of today could not improve the work done by negroes, carpet-baggers and sealawags?

If you find any Democrat who is not going to the polls next Thursday, pin him down and find the reason why. Ask him if the urging of a State Convention is to be of no effect how can he expect the action of a county or city or district convention to be influential with our party? If our State Democratic Convention is not to have weight with our party, then what is going to hold it together? Answer that who can.

IN BECKHAM'S FAVOR. WASHINGTON, May 21.—The United States Supreme Court today decided the Kentucky governorship case in favor of Democratic Governor Beckham, in both quo warranto and the equity proceedings, for want of jurisdiction. The Court dismissed the writ of error from the Kentucky Court of Appeals.

The opinion was handed down by Chief-Justice Fuller, and a vigorous dissenting opinion was delivered by Justice Harlan, the only one to advocate reversal of the Kentucky court decision. Justices Brewer, Brown, and McKenna also dissented from portions of the opinion. In dismissing the writ of error, the Chief Justice said the Court should be the last to overstep the bounds limiting its own jurisdiction, and that the determination of cases of this character, contests for State offices, must necessarily be settled by the political branch of the government. That branch had acted in the Kentucky case when the General Assembly took jurisdiction. There was no appeal from the Assembly's decision, which was favorable to Goebel and Beckham, which tribunal, the Chief Justice said, was always in session.

PURELY A STATE CASE. He also said a case was purely a State case—that Kentucky was in the full possession of its faculties as a member of the Union, and that there was no emergency at this time calling for interference of the General Government to enforce constitutional guarantees, or to put down domestic violence.

POLITICAL. The New York Times says that Admiral Dewey has lost all hope of being nominated for the Presidency, and is now wondering what prompted him to enter the race.

The Republican managers have decided upon the two chief planks of their platform—the present financial policy and a continuance of imperialism and expansion.

THE KENTUCKY MUDDLE. Jim Howard, who was named by witnesses as the man who probably fired the shot which killed Goebel, has surrendered at the Frankfort, Ky., jail.

We have not heard whether when ex-Governor Taylor, of Kentucky, was arrested a pardon for himself was found in his pocket.—Staunton Spectator.

ENGLAND AND THE BOERS.

More About the Pig-Sticking Which the English are Engaged In.

Latest news from Gen. Buller is to the effect that the Boers are fleeing before him and that Newcastle has been occupied.

The siege of Mafeking has lasted about 215 days, we believe, which makes it rank, in length of time at least, probably next to the celebrated siege of Sebastopol, which continued 327 days.

It is reported that President Kruger has made a proposition for peace "couched in a humble strain." In Kronstadt it is said that President Kruger will surrender when Lord Roberts crosses the Transvaal frontier.

Commandant De Wet has offered to surrender to Lord Roberts conditionally, that he and his men be allowed to return to their farms, but Lord Roberts replied that the surrender must be unconditional.

News of Mafeking Raised. London is mad with joy over Mafeking having at last been relieved. Baden-Powell and his brave little band are now heroes for having held the city against such heavy odds.

Skeleton messages, based on information that leaked out at the
